Summary

To play an essential role in the industry of technology by taking on the challenges and high performance oriented roles expected of me. Furthermore, to utilize the skills, expertise, and experiences I have acquired throughout the years. Equipped with strong fundamentals in various programming languages and software testing, I am capable of creating frontend and backend web development, executing software automation, documentation, and testing development.

Education

Tertiary   **BS Computer Engineering**
University of San Carlos, Talamban, Cebu City
Batch 2017

Skill Highlights

Web Development:
- JavaScript
- Node.js
- ExpressJS
- ReactJS (EG. React Redux, Context)
- HTML / CSS / LESS / SCSS

Others:
- API request handling
- No SQL & SQL DB Proficient
- REST-Based oriented
- Service Focused
- Dedicated Team Member
- Innovative
- Creative Designer
- Complex Problem Solver

Achievements

ISTQB Certified Tester Foundation Level CTFL 2018
Software Testing: **JEST, Enzyme**, **Selenium Web Automation (Java), HP ALM, UFT, LoadRunner, Ranorex Studio**
Other programming mentions: **Java, C, PHP**

Work and Coding Experience

Application Senior Development Analyst – July *2021 to Present*
Accenture Inc.
- Develop and enhance applications and components with different languages that conforms with application standards.
- Attends to client's enhancement request and investigate and fix raised concerns and issues.
- Manage and follow proper software development lifecycle to produce software applications
- Performing basic DevOps activities (e.g., Maintaining pipelines, release and build enhancement request for applications)
